Subject: Public comment, 4/27/21

ATTENTION: This email originated outside of LAPD. Do not click on links or open attachments unless you recognize the sender and know the content is safe.

Good morning! Another public comment to add to the pile:

LAPD continues to escalate violence in Los Angeles neighborhoods, with 14 shootings by LAPD so far this year and 6 people killed by police. As in previous years, LAPD continues to respond to calls for help or calls regarding a person in crisis by shooting or killing the person in crisis. As LAPD continues to present a deadly threat to people with mental illness and especially to folks who are Black or Brown, the Mayor of LA continues to increase the budget for LAPD, though more funding is direly needed for housing, health care services, schools, and community support. We demand an investment in community services and alternatives to fatal police response.

On the agenda this week: At the request of Commissioner Decker, LAPD has combined all 106 recommendations from three city-requested “after-action” reports into an “Implementation Plan” that would require $67 million in new spending. What that plan reveals is a department, enabled by a City Council, Board of Police Commissioners, and Mayor that are intent on reframing the conversation from citywide protests against systemic LAPD violence to how LAPD might be “better next time” at managing protests against police.

We clearly see the cycle of uprisings followed by erasure and reframing by city officials, followed by the proposal or reform. This reinforcement of LAPD through an investment in training and technology is exactly the opposite of what communities are demanding, especially as LAPD murders of community members continue.
We also demand an end to the restrictions on public comment, and that public comment follow the agenda item after it has been discussed, so community members might comment on new information that has been shared. Stop restricting the public comment period to forty-five minutes. The irony that you claim to be the “citizens’ voice in police affairs” is glaring. We will continue to make our voices heard.

Calling it an “OIS” doesn’t make it less of a murder,

L.

ATTENTION: This email originated outside of LAPD. Do not click on links or open attachments unless you recognize the sender and know the content is safe.

LAPD continues to escalate violence in Los Angeles neighborhoods, with 14 shootings by LAPD so far this year and 6 people killed by police. As in previous years, LAPD continues to respond to calls for help or calls regarding a person in crisis by shooting or killing the person in crisis. As LAPD continues to present a deadly threat to people with mental illness and especially to folks who are Black or Brown, the Mayor of LA continues to increase the budget for LAPD, though more funding is direly needed for housing, health care services, schools, and community support. We demand an investment in community services and alternatives to a police response; we continue to demand: Defund the Police!

On the agenda this week: At the request of Commissioner Decker, LAPD has combined all 106 recommendations from three city-requested “after-action” reports into an “Implementation Plan” that would require $67 million in new spending, including the following:

* $53.1 million for new trainings, including $663,000 just on bullets to shoot
at these protest trainings
* $4.1 million for a new bureau that will be charged with policing protests
* $2.4 million to hire officers who will engage “community members and leaders
likely to organize and participate in First Amendment assemblies”
* $800,000 for surveillance technology including "software to analyze
open-source internet and social media content to provide field operations with
vetted and usable intelligence/information"
* $492,000 for new policies on Field Jails, $99,428 to train drivers for buses
and vans for mass arrests of protestors
* $300,000 for “encrypted radios or another form of private communication”
* $125,000 for upgraded technology for the "shadow teams" that infiltrate
protests as well as to “study potential new technology for use in public order
policing operations”

What this reveals is a department, enabled by a City Council, Board of Police
Commissioners, and Mayor that are intent on reframing the conversation from citywide
protests against systemic LAPD violence to how LAPD might be “better next time” at
managing protests against police.

We see clearly here the cycle of uprisings followed by erasure and reframing by city
officials, followed by the proposal or reform. This reinforcement of LAPD through an
investment in training and technology is exactly the opposite of what communities
are demanding, especially as LAPD murders of community members continue. We demand a
divestment from LAPD - we said defund, not reform!

We also demand an end to the restrictions on public comment, and that public comment
follow the agenda item after it has been discussed, so community members might
comment on new information that has been shared. Stop restricting the public comment
period to forty-five minutes. The irony that you claim to be the “citizens' voice in
police affairs” is glaring.

We demand an investment in community services and alternatives to a police response; we continue to demand: Defund the Police!

There is no way to ignore the harmful consequences of the LAPDs practices any more. Their work has not created greater public safety, in fact just the opposite. The people of LA know what keeps us safe, and it's fighting the systemic inequality in our city. We need to focus on the root causes of crime through decreasing poverty, inequality, and systemic racism. We've been giving money to cops for decades and nothing has been solved. We have to turn away from policing and turn to restorative justice practices and a Care First model of community safety.

On the agenda this week: At the request of Commissioner Decker, LAPD has combined all 106 recommendations from three city-requested "after-action" reports into an "Implementation Plan" that would require $67 million in new spending, including the following:

* $53.1 million for new trainings, including $663,000 just on bullets to shoot at these protest trainings

We demand a divestment from LAPD - we said defund, not reform!

We also demand an end to the restrictions on public comment, and that public comment follow the agenda item after it has been discussed, so community members might comment on new information that has been shared. Stop restricting the public comment period to forty-five minutes. The irony that you claim to be the “citizens’ voice in police affairs” is glaring.

Signed,
Sherry Varon

Subject:  Public Comment 04/27/2021

ATTENTION: This email originated outside of LAPD. Do not click on links or open attachments unless you recognize the sender and know the content is safe.

LAPD continues to escalate violence in Los Angeles neighborhoods, with 14 shootings by LAPD so far this year and 6 people killed by police. As in previous years, LAPD continues to respond to calls for help or calls regarding a person in crisis by shooting or killing the person in crisis. As LAPD continues to present a deadly threat to people with mental illness and especially to folks who are Black or brown, the Mayor of LA continues to increase the budget for LAPD, though more funding is direly needed for housing, health care services, schools, and community support. We demand an investment in community services and alternatives to a police response; we continue to demand: Defund the Police!

On the agenda this week: At the request of Commissioner Decker, LAPD has combined all 186 recommendations from three city-requested “after-action” reports into an “Implementation Plan” that would require $67 million in new spending, including the
following:

* $53.1 million for new trainings, including $663,000 just on bullets to shoot at these protest trainings
* $4.1 million for a new bureau that will be charged with policing protests
* $2.4 million to hire officers who will engage "community members and leaders likely to organize and participate in First Amendment assemblies"
* $800,000 for surveillance technology including "software to analyze open-source internet and social media content to provide field operations with vetted and useable intelligence/information"
* $492,000 for new policies on Field Jails, $99,428 to train drivers for buses and vans for mass arrests of protestors
* $300,000 for "encrypted radios or another form of private communication"
* $125,000 for upgraded technology for the "shadow teams" that infiltrate protests as well as to "study potential new technology for use in public order policing operations"

What this reveals is a department, enabled by a City Council, Board of Police Commissioners, and Mayor that are intent on reframing the conversation from citywide protests against systemic LAPD violence to how LAPD might be "better next time" at managing protests against police.

We see clearly here the cycle of uprisings followed by erasure and reframing by city officials, followed by the proposal or reform. This reinforcement of LAPD through an investment in training and technology is exactly the opposite of what communities are demanding, especially as LAPD murders of community members continue. We demand a divestment from LAPD - we said defund, not reform!

We also demand an end to the restrictions on public comment, and that public comment follow the agenda item after it has been discussed, so community members might comment on new information that has been shared. Stop restricting the public comment period to forty-five minutes. The irony that you claim to be the "citizens' voice in police affairs" is glaring.

Police Commission,

LAPD continues to escalate violence in Los Angeles neighborhoods, with 14 shootings by LAPD so far this year and 6 people killed by police. As in previous years, LAPD continues to respond to calls for help or calls regarding a person in crisis by shooting or killing the person in crisis. As LAPD continues to present a deadly threat to people with mental illness and especially to folks who are Black or brown, the Mayor of LA continues to increase the budget for LAPD, though more funding is direly needed for housing, health care services, schools, and community support. We demand an investment in community services and alternatives to a police response; we continue to demand: Defund the Police!

We are not asking for a better funded police force—they already have all the funding they need. We are asking the city to use public money to invest in the gravely needed public services like housing, mental health support, parks, libraries, and public health.

On the agenda this week: At the request of Commissioner Decker, LAPD has combined all 106 recommendations from three city-requested “after-action” reports into an “Implementation Plan” that would require $67 million in new spending, including the following:

* $53.1 million for new trainings, including $663,000 just on bullets to shoot
at these protest trainings

* $4.1 million for a new bureau that will be charged with policing protests

* $2.4 million to hire officers who will engage "community members and leaders likely to organize and participate in First Amendment assemblies"

* $800,000 for surveillance technology including "software to analyze open-source internet and social media content to provide field operations with vetted and useable intelligence/information"

* $492,000 for new policies on Field Jails, $99,428 to train drivers for buses and vans for mass arrests of protestors

* $300,000 for "encrypted radios or another form of private communication"

* $125,000 for upgraded technology for the "shadow teams" that infiltrate protests as well as to "study potential new technology for use in public order policing operations"

What this reveals is a department, enabled by a City Council, Board of Police Commissioners, and Mayor that are intent on reframing the conversation from citywide protests against systemic LAPD violence to how LAPD might be "better next time" at managing protests against police.

We see clearly here the cycle of uprisings followed by erasure and reframing by city officials, followed by the proposal of reform. This reinforcement of LAPD through an investment in training and technology is exactly the opposite of what communities are demanding, especially as LAPD murders of community members continue. We demand a divestment from LAPD - we said defund, not reform!

We also demand an end to the restrictions on public comment, and that public comment follow the agenda item after it has been discussed, so community members might comment on new information that has been shared. What this reveals is a department, enabled by a City Council, Board of Police Commissioners, and Mayor that are intent on reframing the conversation from citywide protests against systemic LAPD violence to how LAPD might be "better next time" at managing protests against police.

We see clearly here the cycle of uprisings followed by erasure and reframing by city officials, followed by the proposal for reform. This reinforcement of LAPD through an investment in training and technology is exactly the opposite of what communities are demanding, especially as LAPD murders of community members continue. How many reforms has LAPD gone through over the decades? And yet, taxpayers are still paying millions of dollars to settle cases of police brutality against community members and, more importantly, PEOPLE ARE STILL DYING AT THE HANDS OF THE POLICE. Our criminal legal system is set up so that every person accused of a crime is presumed innocent. Yet, when police kill people, they become judge, jury, and executioner and the presumption of innocence and the entire foundation of our legal system is thrown out the window. We demand a divestment from LAPD - we said defund, not reform!

We also demand an end to the restrictions on public comment, and that public comment follow the agenda item after it has been discussed, so community members might comment on new information that has been shared. Stop restricting the public comment period to forty-five minutes. The irony that you claim to be the "citizens' voice in police affairs" is glaring.

Hello,

It saddens me that I have to continue to write week after week about the atrocious incapacibilities of this institution. We have continued to voice our opinion week after week that we want to DEFUND THE POLICE and we do not need reform. It has almost been one year from the start of the nationwide protests and you better believe that we will be holding everyone accountable. We urge that you listen and you help us in protecting our black and brown communities.

LAPD continues to escalate violence in Los Angeles neighborhoods, with 14 shootings by LAPD so far this year and 6 people killed by police. As in previous years, LAPD continues to respond to calls for help or calls regarding a person in crisis by shooting or killing the person in crisis. As LAPD continues to present a deadly threat to people with mental illness and especially to folks who are Black or brown, the Mayor of LA continues to increase the budget for LAPD, though more funding is direly needed for housing, health care services, schools, and community support. We
demand investment in community services and alternatives to a police response; we
continue to demand: Defund the Police!

On the agenda this week: At the request of Commissioner Decker, LAPD has combined
all 106 recommendations from three city-requested "after-action" reports into an
"Implementation Plan" that would require $67 million in new spending, including the
following:

* $53.1 million for new training, including $663,000 just on bullets to shoot
at these protest training

* $4.1 million for a new bureau that will be charged with policing protests

* $2.4 million to hire officers who will engage "community members and leaders
likely to organize and participate in First Amendment assemblies"

* $800,000 for surveillance technology including "software to analyze
open-source internet and social media content to provide field operations with
vetted and useable intelligence/information"

* $492,000 for new policies on Field Jails, $99,428 to train drivers for buses
and vans for mass arrests of protestors

* $300,000 for "encrypted radios or another form of private communication"

* $125,000 for upgraded technology for the "shadow teams" that infiltrate
protests as well as to "study potential new technology for use in public order
policing operations"

What this reveals is a department, enabled by a City Council, Board of Police
Commissioners, and Mayor that are intent on reframing the conversation from citywide
protests against systemic LAPD violence to how LAPD might be "better next time" at
managing protests against police.

We also demand an end to the restrictions on public comment, and that public comment
follows the agenda item after it has been discussed, so community members might
comment on new information that has been shared. Stop restricting the public comment
period to forty-five minutes. You claim to be the "citizens' voice in police
affairs." Start acting like it.

Best,
Danielle Castrence

Commissioners, come ON. This city's police department is raging out of control. You're supposed to be the ones doing something about it. The people want defunding, not reform. With the possible exception of Dale Bonner, you're all (at best) passively complicit with all this racism and violence and (at worst) Steve Soboroff and Eileen Decker.

LAPD continues to escalate violence in Los Angeles neighborhoods, with 14 shootings by LAPD so far this year and 6 people killed by police. As a volunteer in the community who works to support the needs of my unhoused neighbors, I’ve seen first-hand that what is needed is resources, not more law-enforcement. Just this past week, two of my neighbors let us know that because of our support over a mere handful of months, they were able to live their lives without relying on more desperate measures to survive. The combined dollar amount to support them was in the low-hundreds of dollars. This, to me, is proof that this type of support works! Let’s spend our money on our communities! You have the power to make change. Please, please do your job!

Good morning,

LAPD continues to escalate violence in Los Angeles neighborhoods, with 14 shootings
by LAPD so far this year and 6 people killed by police. As in previous years, LAPD continues to respond to calls for help or calls regarding a person in crisis by shooting or killing the person in crisis. As LAPD continues to present a deadly threat to people with mental illness and especially to folks who are Black or brown, the Mayor of LA continues to increase the budget for LAPD, though more funding is direly needed for housing, health care services, schools, and community support. We demand an investment in community services and alternatives to a police response; we continue to demand: Defund the Police!

On the agenda this week: At the request of Commissioner Decker, LAPD has combined all 106 recommendations from three city-requested “after-action” reports into an “Implementation Plan” that would require $67 million in new spending, including the following:

* $53.1 million for new trainings, including $663,000 just on bullets to shoot at these protest trainings

* $4.1 million for a new bureau that will be charged with policing protests

* $2.4 million to hire officers who will engage "community members and leaders likely to organize and participate in First Amendment assemblies"

* $800,000 for surveillance technology including "software to analyze open-source internet and social media content to provide field operations with vetted and useable intelligence/information"

* $492,000 for new policies on Field Jails, $99,428 to train drivers for buses and vans for mass arrests of protestors

* $300,000 for "encrypted radios or another form of private communication"

* $125,000 for upgraded technology for the "shadow teams" that infiltrate protests as well as to "study potential new technology for use in public order policing operations"

What this reveals is a department, enabled by a City Council, Board of Police Commissioners, and Mayor that are intent on reframing the conversation from citywide protests against systemic LAPD violence to how LAPD might be “better next time” at managing protests against police.

We see clearly here the cycle of uprisings followed by erasure and reframing by city officials, followed by the proposal or reform. This reinforcement of LAPD through an investment in training and technology is exactly the opposite of what communities are demanding, especially as LAPD murders of community members continue. We demand a

Subject: Public Comment 04/27/2021

ATTENTION: This email originated outside of LAPD. Do not click on links or open attachments unless you recognize the sender and know the content is safe.

LAPD continues to escalate violence in Los Angeles neighborhoods, with 14 shootings by LAPD so far this year and 6 people killed by police. As in previous years, LAPD continues to respond to calls for help or calls regarding a person in crisis by shooting or killing the person in crisis. As LAPD continues to present a deadly threat to people with mental illness and especially to folks who are Black or brown, the Mayor of LA continues to increase the budget for LAPD, though more funding is direly needed for housing, health care services, schools, and community support. We demand an investment in community services and alternatives to a police response; we continue to demand: Defund the Police!

On the agenda this week: At the request of Commissioner Decker, LAPD has combined all 106 recommendations from three city-requested “after-action” reports into an
"Implementation Plan" that would require $67 million in new spending, including the following:

* $53.1 million for new trainings, including $663,000 just on bullets to shoot at these protest trainings
* $4.1 million for a new bureau that will be charged with policing protests
* $2.4 million to hire officers who will engage "community members and leaders likely to organize and participate in First Amendment assemblies"
* $800,000 for surveillance technology including "software to analyze open-source internet and social media content to provide field operations with vetted and useable intelligence/information"
* $492,000 for new policies on Field Jails, $99,428 to train drivers for buses and vans for mass arrests of protestors
* $300,000 for "encrypted radios or another form of private communication"
* $125,000 for upgraded technology for the "shadow teams" that infiltrate protests as well as to "study potential new technology for use in public order policing operations"

What this reveals is a department, enabled by a City Council, Board of Police Commissioners, and Mayor that are intent on reframing the conversation from citywide protests against systemic LAPD violence to how LAPD might be "better next time" at managing protests against police.

We see clearly here the cycle of uprisings followed by erasure and reframing by city officials, followed by the proposal or reform. This reinforcement of LAPD through an investment in training and technology is exactly the opposite of what communities are demanding, especially as LAPD murders of community members continue. We demand a divestment from LAPD - we said defund, not reform!

We also demand an end to the restrictions on public comment, and that public comment follow the agenda item after it has been discussed, so community members might comment on new information that has been shared. Stop restricting the public comment period to forty-five minutes. You claim to be the "citizens' voice in police affairs." Start acting like it.

Signed,

Subject: Public Comment 04/27/2021

ATTENTION: This email originated outside of LAPD. Do not click on links or open attachments unless you recognize the sender and know the content is safe.

Good morning,

I am reaching out to submit public comment.

LAPD continues to escalate violence in Los Angeles neighborhoods, with 14 shootings by LAPD so far in 2021 and 6 people killed by police. As in previous years, LAPD continues to respond to calls for help or calls regarding a person in crisis by shooting or killing the person in crisis. As LAPD continues to present a threat to people with mental illness and especially to folks who are Black or brown, the Mayor of LA continues to increase the budget for LAPD. All this while we can clearly see that more funding is direly needed for housing, health care services, schools, and community support. We demand an investment in community services and alternatives to a police response; we continue to demand: Defund the Police!

On the agenda this week: At the request of Commissioner Decker, LAPD has combined all 106 recommendations from three city-requested “after-action” reports into an
"Implementation Plan" that would require $67 million in new spending, including the following:

* $53.1 million for new trainings, including $663,000 just on bullets to shoot at these protest trainings

* $4.1 million for a new bureau that will be charged with policing protests

* $2.4 million to hire officers who will engage "community members and leaders likely to organize and participate in First Amendment assemblies"

* $800,000 for surveillance technology including "software to analyze open-source internet and social media content to provide field operations with vetted and useable intelligence/information"

* $492,000 for new policies on Field Jails, $99,428 to train drivers for buses and vans for mass arrests of protestors

* $300,000 for "encrypted radios or another form of private communication"

* $125,000 for upgraded technology for the "shadow teams" that infiltrate protests as well as to "study potential new technology for use in public order policing operations"

What this reveals is a department, enabled by a City Council, Board of Police Commissioners, and Mayor that are intent on reframing the conversation from citywide protests against systemic LAPD violence to how LAPD might be "better next time" at managing protests against police.

We see clearly here the cycle of uprisings followed by erasure and reframing by city officials, followed by the proposal or reform. This reinforcement of LAPD through an investment in training and technology is exactly the opposite of what communities are demanding, especially as LAPD murders of community members continue. Commissioners: We demand funding for services that Los Angeles so desperately needs: housing, health care services, education, community services and alternatives to police response. LAPD continues to respond to calls for help or calls regarding a person in crisis by shooting or killing the person in crisis. As LAPD continues to present a deadly threat to our community, the Mayor of LA continues to increase the budget for LAPD. We direly need funding for housing, health care services, schools, and community support. We demand investment in community services and alternatives to a police response.

On the agenda this week: At the request of Commissioner Decker, LAPD has combined all 106 recommendations from three city-requested “after-action” reports into an “Implementation Plan” that would require $67 million in new spending, including the following:

* $53.1 million for new trainings, including $663,000 just on bullets to shoot at these protest trainings

Subject:     Public Comments 04/27/2021

ATTENTION: This email originated outside of LAPD. Do not click on links or open attachments unless you recognize the sender and know the content is safe.

LAPD has no other tool to “fight crime” than their guns. There seems to be little to no deescalation going on. So far this year there have been 14 shootings and 6 people killed by LAPD.

As always, LAPD continues to respond to calls for help or calls regarding a person in crisis by shooting or killing the person in crisis. At what point will LAPD train their officers to help those in crisis instead of threatening them with violence? If someone is in crisis, they may not be mentally healthy, the threat of violence may cause them to act more erratically. There is no good reason to have a police officer who is not trained to help those in crisis, be the first one on the scene.

As LAPD continues to present a deadly threat to people with mental illness and especially to folks who are Black or brown, the Mayor of LA continues to increase the budget for LAPD, though more funding is direly needed for housing, health care services, schools, and community support. We demand an investment in community services and alternatives to a police response; we continue to demand: Defund the Police!

On the agenda this week: At the request of Commissioner Decker, LAPD has combined all 166 recommendations from three city-requested “after-action” reports into an “Implementation Plan” that would require $67 million in new spending, including the following:
* $53.1 million for new trainings, including $663,000 just on bullets to shoot at these protest trainings

* $4.1 million for a new bureau that will be charged with policing protests

* $2.4 million to hire officers who will engage "community members and leaders likely to organize and participate in First Amendment assemblies"

* $800,000 for surveillance technology including "software to analyze open-source internet and social media content to provide field operations with vetted and useable intelligence/information"

* $492,000 for new policies on Field Jails, $99,428 to train drivers for buses and vans for mass arrests of protestors

* $300,000 for "encrypted radios or another form of private communication"

* $125,000 for upgraded technology for the "shadow teams" that infiltrate protests as well as to "study potential new technology for use in public order policing operations"

What this reveals is a department, enabled by a City Council, Board of Police Commissioners, and Mayor that are intent on reframing the conversation from citywide protests against systemic LAPD violence to how LAPD might be "better next time" at managing protests against police.

We see clearly here the cycle of uprisings followed by erasure and reframing by city officials, followed by the proposal or reform. This reinforcement of LAPD through an investment in training and technology is exactly the opposite of what communities are demanding, especially as LAPD murders of community members continue. We demand a divestment from LAPD - we said defund, not reform!

Hello!

LAPD continues to escalate violence in Los Angeles neighborhoods, with 14 shootings by LAPD so far this year and 6 people killed by police. As in previous years, LAPD continues to respond to calls for help or calls regarding a person in crisis by shooting or killing the person in crisis. As LAPD continues to present a deadly threat to people with mental illness and especially to folks who are Black or brown, the Mayor of LA continues to increase the budget for LAPD, though more funding is direly needed for housing, health care services, schools, and community support. We demand an investment in community services and alternatives to a police response; we continue to demand: Defund the Police!

On the agenda this week: At the request of Commissioner Decker, LAPD has combined all 186 recommendations from three city-requested "after-action" reports into an "Implementation Plan" that would require $67 million in new spending, including the following:

* $53.1 million for new trainings, including $663,000 just on bullets to shoot at these protest trainings
* $4.1 million for a new bureau that will be charged with policing protests
*$ 2.4 million to hire officers who will engage "community members and leaders likely to organize and participate in First Amendment assemblies"

*$ 800,000 for surveillance technology including "software to analyze open-source internet and social media content to provide field operations with vetted and useable intelligence/information"

*$ 492,000 for new policies on Field Jails, $99,428 to train drivers for buses and vans for mass arrests of protestors

*$ 300,000 for "encrypted radios or another form of private communication"

*$ 125,000 for upgraded technology for the "shadow teams" that infiltrate protests as well as to "study potential new technology for use in public order policing operations"

What this reveals is a department, enabled by a City Council, Board of Police Commissioners, and Mayor that are intent on reframing the conversation from citywide protests against systemic LAPD violence to how LAPD might be "better next time" at managing protests against police.

We see clearly here the cycle of uprisings followed by erasure and reframing by city officials, followed by the proposal or reform. This reinforcement of LAPD through an investment in training and technology is exactly the opposite of what communities are demanding, especially as LAPD murders of community members continue. We demand a divestment from LAPD - we said defund, not reform!

We also demand an end to the restrictions on public comment, and that public comment follow the agenda item after it has been discussed, so community members might comment on new information that has been shared. Stop restricting the public comment period to forty-five minutes. You claim to be the "citizens' voice in police affairs." Start acting like it.

Signed,

Ema Gerch

ATTENTION: This email originated outside of LAPD. Do not click on links or open attachments unless you recognize the sender and know the content is safe.

Good morning,
I would like to address the LA Police Comission and all relevent parties with my concerns about the racist structures of our law enforcement system that are impeding the safety and livelihood of my fellow Los Angelenos, specifically and most urgently, those of color. I am appalled at the way the commission is deciding to irresponsibly financially handle supposed "reforms" and the way in which they are using abstract discourses to detract from heinous, violent actions. For these reasons I have for you all the following message:

LAPD continues to escalate violence in Los Angeles neighborhoods, with 14 shootings by LAPD so far this year and 6 people killed by police. As in previous years, LAPD continues to respond to calls for help or calls regarding a person in crisis by shooting or killing the person in crisis. As LAPD continues to present a deadly threat to people with mental illness and especially to folks who are Black or brown, the Mayor of LA continues to increase the budget for LAPD, though more funding is direly needed for housing, health care services, schools, and community support. We demand an investment in community services and alternatives to a police response; we continue to demand: Defund the Police!

On the agenda this week: At the request of Commissioner Decker, LAPD has combined all 106 recommendations from three city-requested “after-action” reports into an “Implementation Plan” that would require $67 million in new spending, including the following:

* $53.1 million for new trainings, including $663,000 just on bullets to shoot at these protest trainings
* $4.1 million for a new bureau that will be charged with policing protests
* $2.4 million to hire officers who will engage "community members and leaders likely to organize and participate in First Amendment assemblies"

* $800,000 for surveillance technology including "software to analyze open-source internet and social media content to provide field operations with vetted and useable intelligence/information"

* $492,000 for new policies on Field Jails, $99,428 to train drivers for buses and vans for mass arrests of protestors

* $300,000 for "encrypted radios or another form of private communication"

* $125,000 for upgraded technology for the "shadow teams" that infiltrate protests as well as to "study potential new technology for use in public order policing operations"

What this reveals is a department, enabled by a City Council, Board of Police Commissioners, and Mayor that are intent on reframing the conversation from citywide protests against systemic LAPD violence to how LAPD might be “better next time” at managing protests against police.

We see clearly here the cycle of uprisings followed by erasure and reframing by city officials, followed by the proposal or reform. This reinforcement of LAPD through an investment in training and technology is exactly the opposite of what communities are demanding, especially as LAPD murders of community members continue. We demand a divestment from LAPD - we said defund, not reform!

We also demand an end to the restrictions on public comment, and that public comment follow the agenda item after it has been discussed, so community members might comment on new information that has been shared. Despite all the "reforms" that have already been implemented - per Chief Moore who relentlessly touts them as achievements - LAPD continues to be a deadly force in our communities.

LAPD continues to escalate violence in Los Angeles neighborhoods, with 14 shootings by LAPD so far this year and 6 people killed by police. As in previous years, LAPD continues to respond to calls for help or calls regarding a person in crisis by shooting or killing the person in crisis. As LAPD continues to present a deadly threat to people with mental illness and especially to folks who are Black or brown, the Mayor of LA continues to increase the budget for LAPD, though more funding is direly needed for housing, health care services, schools, and community support. We demand an investment in community services and alternatives to a police response; we continue to demand: Defund the Police!

On the agenda this week: At the request of Commissioner Decker, LAPD has combined all 186 recommendations from three city-requested "after-action" reports into an "Implementation Plan" that would require $67 million in new spending, including the following:

* $53.1 million for new trainings, including $663,000 just on bullets to shoot at these protest trainings
* $4.1 million for a new bureau that will be charged with policing protests
* $2.4 million to hire officers who will engage "community members and leaders likely to organize and participate in First Amendment assemblies"
* $800,000 for surveillance technology including "software to analyze open-source internet and social media content to provide field operations with vetted and useable intelligence/information"
* $492,000 for new policies on Field Jails, $99,428 to train drivers for buses and vans for mass arrests of protestors
*$300,000 for “encrypted radios or another form of private communication”

*$125,000 for upgraded technology for the "shadow teams" that infiltrate protests as well as to “study potential new technology for use in public order policing operations”

This is HORRIFYING. These proposals do not sound like they will keep Angelenos safe. They all sound like they’ve been designed to punish the people for speaking out via their First Amendment right to protest. What this reveals is a department, enabled by a City Council, Board of Police Commissioners, and Mayor that are intent on reframing the conversation from citywide protests against systemic LAPD violence to how LAPD might be “better next time” at managing protests against police.

We see clearly here the cycle of uprisings followed by erasure and reframing by city officials, followed by the proposal or reform. This reinforcement of LAPD through an investment in training and technology is exactly the opposite of what communities are demanding, especially as LAPD murders of community members continue. We demand a divestment from LAPD - we said defund, not reform!

We also demand an end to the restrictions on public comment, and that public comment follow the agenda item after it has been discussed, so community members might comment on new information that has been shared. Stop restricting the public comment period to forty-five minutes. You claim to be the “citizens’ voice in police affairs.” Start acting like it.

Signed,

Hello,

I am a resident of Los Angeles and I am sharing public comment regarding LAPD funding.

LAPD continues to escalate violence in Los Angeles neighborhoods, with fourteen shootings by LAPD so far this year (so, nearly one a week) and six people killed by police. LAPD continues to respond to calls for help or calls regarding a person in crisis by shooting or killing the person in crisis. LAPD should not be killing anyone, period. As LAPD continues to exist as a deadly threat to people with mental illness - and especially folks who are Black or brown - the Mayor of LA continues to increase the budget for LAPD. Why? Now more than ever, we know that more funding is desperately needed for housing, health care services, schools, and community support. We also know that if we are to properly fund those services, people's basic needs will be met and we will see a reduction in crime. Continuing to increase police budgets only increases the community's fear and lack of trust in an institution that is directly causing harm when it purports to keep people safe. We demand an investment in community services and alternatives to a police response, and we continue to demand: Defund the Police.
On the agenda this week: At the request of Commissioner Decker, LAPD has combined all 186 recommendations from three city-requested "after-action" reports into an "Implementation Plan" that would require $67M in new spending, including the following:

* $53.1 million for new trainings, including $653,000 just on bullets to shoot at these protest trainings
* $4.1 million for a new bureau that will be charged with policing protests
* $2.4 million to hire officers who will engage "community members and leaders likely to organize and participate in First Amendment assemblies"
* $800,000 for surveillance technology including "software to analyze open-source internet and social media content to provide field operations with vetted and useable intelligence/information"
* $492,000 for new policies on Field Jails, $99,428 to train drivers for buses and vans for mass arrests of protestors
* $300,000 for "encrypted radios or another form of private communication"
* $125,000 for upgraded technology for the "shadow teams" that infiltrate protests as well as to "study potential new technology for use in public order policing operations"

This reveals a department - enabled by a City Council, Board of Police Commissioners, and Mayor - that is intent on reframing the conversation from citywide protests against systemic LAPD violence to how LAPD might be "better next time" at managing protests against police. We don't want additional surveillance or additional offers to "engage community members and leaders likely to organize and participate in First Amendment assemblies". We want investment into the community.

It is clear there is a cycle of uprisings, followed by erasure and reframing by city officials, followed by the proposal or reform. How can we expect real change or community support with this cycle? This reinforcement of LAPD with an investment in training and technology is exactly the opposite of what communities are demanding, especially as LAPD murders of community members continue! We demand a divestment from LAPD - we said defund, not reform.

We also demand an end to the restrictions on public comments, and that public comment follow the agenda item after it has been discussed, so community members might comment on new information that has been shared. Stop restricting the public comment time to forty-five minutes. You claim to be the "citizens' voice in police
affairs". Start acting like it.

Signed,

Emma

ATTENTION: This email originated outside of LAPD. Do not click on links or open attachments unless you recognize the sender and know the content is safe.

Commissioners:

LAPD continues to escalate violence in Los Angeles neighborhoods, with 14 shootings by LAPD so far this year and 6 people killed by police. Commissioners, does it bother you how hard LAPD is working to keep its lead as the most violent and murderous police force in this country? Does your complicity in this reign of terror leave you unsettled? distraught? ashamed? Sometimes, Dale Bonner, you show signs of weariness with your role and with this commission’s standard operating procedures. Surely you recognize that LAPD is not truly a model for law enforcement agencies country wide unless they are all stretching to get the same outcomes we have here in LA.

As in previous years, LAPD continues to respond to calls for help or calls regarding a person in crisis by shooting or killing the person in crisis. As LAPD continues to present a deadly threat to people with mental illness and especially to folks who are Black or brown, the Mayor of LA continues to increase the budget for LAPD, though more funding is direly needed for housing, health care services, schools, and community support. We demand an investment in community services and alternatives to a police response; we continue to demand: Defund the Police!

On the agenda this week: At the request of Commissioner Decker, LAPD has combined all 106 recommendations from three city-requested “after-action” reports into an “Implementation Plan” that would require $67 million in new spending, including the
following:

* $53.1 million for new trainings, including $663,000 just on bullets to shoot at these protest trainings

* $4.1 million for a new bureau that will be charged with policing protests

* $2.4 million to hire officers who will engage "community members and leaders likely to organize and participate in First Amendment assemblies"

* $800,000 for surveillance technology including "software to analyze open-source internet and social media content to provide field operations with vetted and useable intelligence/information"

* $492,000 for new policies on Field Jails, $99,428 to train drivers for buses and vans for mass arrests of protestors

* $300,000 for "encrypted radios or another form of private communication"

* $125,000 for upgraded technology for the "shadow teams" that infiltrate protests as well as to “study potential new technology for use in public order policing operations”

What this reveals is a department, enabled by a City Council, Board of Police Commissioners, and Mayor that are intent on reframing the conversation from citywide protests against systemic LAPD violence to how LAPD might be “better next time” at managing protests against police.

We see clearly here the cycle of uprisings followed by erasure and reframing by city officials, followed by the proposal or reform. This reinforcement of LAPD through an investment in training and technology is exactly the opposite of what communities are demanding, especially as LAPD murders of community members continue. We demand a divestment from LAPD - we said defund, not reform!

We also demand an end to the restrictions on public comment, and that public comment follow the agenda item after it has been discussed, so community members might comment on new information that has been shared. Stop restricting the public comment period to forty-five minutes. You claim to be the “citizens’ voice in police affairs.” Start acting like it.

Commissioners,

LAPD continues to escalate violence in Los Angeles neighborhoods, with 14 shootings by LAPD so far this year and 6 people killed by police. As in previous years, LAPD continues to respond to calls for help or calls regarding a person in crisis by shooting or killing the person in crisis. As LAPD continues to present a deadly threat to people with mental illness and especially to folks who are Black or brown, the Mayor of LA continues to increase the budget for LAPD, though we are in dire need of more funding for housing, health care services, schools, and community support. We demand an investment in community services and alternatives to a police response; we continue to demand: Defund the Police!

On the agenda this week: At the request of Commissioner Decker, LAPD has combined all 166 recommendations from three city-requested “after-action” reports into an “Implementation Plan” that would require $67 million in new spending, including the following:

* $53.1 million for new trainings, including $663,000 just on bullets to shoot at these protest trainings

* $4.1 million for a new bureau that will be charged with policing protests

* $2.4 million to hire officers who will engage “community members and leaders likely to organize and participate in First Amendment assemblies”

* $800,000 for surveillance technology including “software to analyze open-source internet and social media content to provide field operations with vetted and useable intelligence/information”
* $492,000 for new policies on Field Jails, $99,428 to train drivers for buses and vans for mass arrests of protestors

* $300,000 for “encrypted radios or another form of private communication”

* $125,000 for upgraded technology for the "shadow teams" that infiltrate protests as well as to “study potential new technology for use in public order policing operations”

What this reveals is a department, enabled by a City Council, Board of Police Commissioners, and Mayor that are intent on reframing the conversation from citywide protests against systemic LAPD violence to how LAPD might be “better next time” at managing protests against police.

We see clearly here the cycle of uprisings followed by erasure and reframing by city officials, followed by the proposal or reform. This reinforcement of LAPD through an investment in training and technology is exactly the opposite of what communities are demanding, especially as LAPD murders of community members continue. We demand a divestment from LAPD - we said defund, not reform!

We also demand an end to the restrictions on public comment, and that public comment follow the agenda item after it has been discussed, so community members might comment on new information that has been shared. Stop restricting the public comment period to forty-five minutes. You claim to be the “citizens’ voice in police affairs.” Start acting like it.

Signed,

Phoebe Neidhardt

The proposed "reforms" that will give LAPD more weapons training, more surveillance tech, and millions to create a *new* LAPD bureau to police protests are not what I want and they are not what the people want. Stop spending my money to arm and weaponize a PD that continues to murder Black and brown people.

LAPD continues to escalate violence in Los Angeles neighborhoods, with 14 shootings by LAPD so far this year and 6 people killed by police. As in previous years, LAPD continues to respond to calls for help or calls regarding a person in crisis by shooting or killing the person in crisis. As LAPD continues to present a deadly threat to people with mental illness and especially to folks who are Black or brown, the Mayor of LA continues to increase the budget for LAPD, though more funding is direly needed for housing, health care services, schools, and community support. We demand an investment in community services and alternatives to a police response; we continue to demand: Defund the Police!

On the agenda this week: At the request of Commissioner Decker, LAPD has combined all 106 recommendations from three city-requested "after-action" reports into an "Implementation Plan" that would require $67 million in new spending, including the following:

* $53.1 million for new trainings, including $663,000 just on bullets to shoot at these protest trainings
* $4.1 million for a new bureau that will be charged with policing protests
* $2.4 million to hire officers who will engage "community members and leaders likely to organize and participate in First Amendment assemblies"
* $800,000 for surveillance technology including "software to analyze open-source internet and social media content to provide field operations with vetted and useable intelligence/information"
* $492,000 for new policies on Field Jails, $99,428 to train drivers for buses and vans for mass arrests of protestors
* $300,000 for "encrypted radios or another form of private communication"
* $125,000 for upgraded technology for the "shadow teams" that infiltrate protests as well as to "study potential new technology for use in public order policing operations"

To commissioners: We demand funding for services that Los Angeles so desperately needs: housing, health care services, education, community services and alternatives to police response. LAPD continues to respond to calls for help or calls regarding a person in crisis by shooting or killing the person in crisis. As LAPD continues to present a deadly threat to our community, the Mayor of LA continues to increase the budget for LAPD. We direly need funding for housing, health care services, schools, and community support. We demand investment in community services and alternatives to a police response.
On the agenda this week: At the request of Commissioner Decker, LAPD has combined all 106 recommendations from three city-requested “after-action” reports into an “Implementation Plan” that would require $67 million in new spending, including the following:

ATTENTION: This email originated outside of LAPD. Do not click on links or open attachments unless you recognize the sender and know the content is safe.

LAPD continues to prove day after day that they escalate violence, they do not prevent it. LAPD has only gotten more violent with calls to defund the police and invest in our communities, they have already killed 6 people and have had 14
shootings this year. LAPD is a threat to the lives of Black, Brown, Indigenous, disabled, mentally ill, and unhoused folk. We must put our money and care towards these people’s livelihoods, not in the pockets of the police department. We must divest from policing and invest in community services and alternatives to police.

On the agenda this week: At the request of Commissioner Decker, LAPD has combined all 106 recommendations from three city-requested “after-action” reports into an “Implementation Plan” that would require $67 million in new spending, including the following:

To the Police Commission:

LAPD continues to present a deadly threat to the community while also sucking up half the city's budget. LAPD has escalated violence in our neighborhoods, with 14 shootings by LAPD so far this year and 6 people killed by police. As in previous years, LAPD continues to respond to calls for help or calls regarding a person in crisis by shooting or killing the person in crisis. I demand an investment in community services and alternatives to a police response. Fund housing and healthcare; defund LAPD.

On the agenda this week: At the request of Commissioner Decker, LAPD has combined all 106 recommendations from three city-requested “after-action” reports into an “Implementation Plan” that would require $67 million in new spending, including the following:

* $53.1 million for new trainings, including $663,000 just on bullets to shoot at these protest trainings

* $4.1 million for a new bureau that will be charged with policing protests

* $2.4 million to hire officers who will engage “community members and leaders likely to organize and participate in First Amendment assemblies”

* $800,000 for surveillance technology including “software to analyze open-source internet and social media content to provide field operations with vetted and useable intelligence/information”

* $492,000 for new policies on Field Jails, $99,428 to train drivers for buses and vans for mass arrests of protestors

* $300,000 for “encrypted radios or another form of private communication”
* $125,000 for upgraded technology for the "shadow teams" that infiltrate protests as well as to "study potential new technology for use in public order policing operations"

What this reveals is a department, enabled by a City Council, Board of Police Commissioners, and Mayor that are intent on reframing the conversation from citywide protests against systemic LAPD violence to how LAPD might be "better next time" at managing protests against police.

This reinforcement of LAPD through an investment in training and technology is exactly the opposite of what communities are demanding, especially as LAPD murders of community members continue.

I also demand an end to the restrictions on public comment, and that public comment follow the agenda item after it has been discussed, so community members might comment on new information that has been shared. Stop restricting the public comment period to forty-five minutes. You claim to be the “citizens’ voice in police affairs.” Start acting like it.

Sincerely,

Amelie Cherlin

Los Angeles

ATTENTION: This email originated outside of LAPD. Do not click on links or open attachments unless you recognize the sender and know the content is safe.

LAPD continues to escalate violence in Los Angeles neighborhoods, with 14 shootings by LAPD so far this year and 6 people killed by police. As in previous years, LAPD continues to respond to calls for help or calls regarding a person in crisis by shooting or killing the person in crisis.

The Mayor of LA continues to increase the budget for LAPD, though more funding is instead needed for housing, health care services, schools, and community support. The city should be investing in community services and alternatives to a police response and REDUCING the police budget. The expenses below are contrary to the goal of increasing public safety and will instead have the effect of making legitimate protest more difficult and dangerous.

On the agenda this week: At the request of Commissioner Decker, LAPD has combined all 106 recommendations from three city-requested “after-action” reports into an “Implementation Plan” that would require $67 million in new spending, including the following:

* $53.1 million for new trainings, including $663,000 just on bullets to shoot at these protest trainings
* $4.1 million for a new bureau that will be charged with policing protests
* $2.4 million to hire officers who will engage “community members and leaders likely to organize and participate in First Amendment assemblies”
* $800,000 for surveillance technology including “software to analyze open-source internet and social media content to provide field operations with vetted and useable intelligence/information”
* $492,000 for new policies on Field Jails, $99,428 to train drivers for buses and vans for mass arrests of protestors
* $300,000 for “encrypted radios or another form of private communication”
* $125,000 for upgraded technology for the "shadow teams" that infiltrate protests as well as to “study potential new technology for use in public order policing operations”

Citywide protests against LAPD violence should be leading to a dramatic reduction in the police budget and the above expenses are contrary to what the community and the protestors are demanding. These are constituents and voters who are trying to make
their voices heard in an increasingly hostile environment.

Dear Commissioners and gentlemen Tefank and Smith,

Congratulations on making it this far. You have achieved a level of cognitive dissonance that is remarkable, and that will surely outlive you in the archives of human existence.

To reach this point in history, and to come to the table with straight faces as you review the LAPD's plans for the use of an increased proposed budget that included the creation of a department dedicated to handling protests, is proof that you all are either completely out of your minds, or you are simply complicit. Complicit is systemic, state-sanctioned violence against a city full of people who are- in effect- footing the bill for their own demise.

Here is an idea: defund the police. If I failed at my job and became increasingly violent while doing it, my boss wouldn't decide to give me MORE money. They wouldn't decide to re-educate me and give me another chance. They would fire me. Just like you should fire Moore. And just like you all should resign.

I believe that Mr. TeFank is caught between a rock and a hard place. He didn't get into this to be a fool, but he looks like one because this commission forces him to do so many soft shoes he could have his own traveling show. Soberoff loves his pals at the LAPPL. He loves his fame and he loves Garcetti. All of you do. Will this love fest continue until Los Angeles is literally home only to the LAPD and the ghosts of the people who have been violently oppressed, suppressed, incarcerated, criminalized, terrorized, and neglected while the city gave their taxpayer dollars to the cops instead of providing basic services? How do you house people with guns?
How do children get educated by guns? How do single mothers raising kids alone get help from guns? Who gets medical care from guns? It seems that the only thing you all care about is funneling our resources into the LAPD. Make whatever justifications you can, but we all see you and we know the truth. If I were any one of you I would quit and spend the rest of my life trying to undo the damage that I did to this city.

I have no words left today for you. But lots of people do, so why don’t you expand public comment and stop acting like you don’t know how to run meetings on Zoom? It is so embarrassing that you are the body tasked with being the “voice of the people.” You couldn’t be further from that.

Respectfully yours, you sad and lost souls,

Irene Moore.

Subject: Public Comment 04/27/2021

ATTENTION: This email originated outside of LAPD. Do not click on links or open attachments unless you recognize the sender and know the content is safe.

Hello,

I’m writing today as a concerned LA City resident and mother of two young children. The LAPD continues to escalate violence in Los Angeles neighborhoods, with 14 shootings by LAPD so far this year and 6 people killed by police. As in previous years, LAPD continues to respond to calls for help or calls regarding a person in crisis by shooting or killing the person in crisis.

As LAPD continues to present a deadly threat to people with mental illness and especially to folks who are Black or brown, the Mayor of LA continues to increase the budget for LAPD, though more funding is direly needed for housing, health care
services, schools, and community support. We demand an investment in community services and alternatives to a police response; we continue to demand: Defund the Police!

On the agenda this week: At the request of Commissioner Decker, LAPD has combined all 106 recommendations from three city-requested “after-action” reports into an “Implementation Plan” that would require $67 million in new spending, including the following:

* $53.1 million for new trainings, including $663,000 just on bullets to shoot at these protest trainings
* $4.1 million for a new bureau that will be charged with policing protests
* $2.4 million to hire officers who will engage “community members and leaders likely to organize and participate in First Amendment assemblies”
* $800,000 for surveillance technology including "software to analyze open-source internet and social media content to provide field operations with vetted and useable intelligence/information"
* $492,000 for new policies on Field Jails, $99,428 to train drivers for buses and vans for mass arrests of protestors
* $300,000 for “encrypted radios or another form of private communication”
* $125,000 for upgraded technology for the "shadow teams" that infiltrate protests as well as to “study potential new technology for use in public order policing operations”

What this reveals is a department, enabled by a City Council, Board of Police Commissioners, and Mayor that are intent on reframing the conversation from citywide protests against systemic LAPD violence to how LAPD might be “better next time” at managing protests against police.

We see clearly here the cycle of uprisings followed by erasure and reframing by city officials, followed by the proposal or reform. This reinforcement of LAPD through an investment in training and technology is exactly the opposite of what communities are demanding, especially as LAPD murders of community members continue. We demand a divestment from LAPD - we said defund, not reform!

We also demand an end to the restrictions on public comment, and that public comment follow the agenda item after it has been discussed, so community members might comment on new information that has been shared. Stop restricting the public comment
period to forty-five minutes. You claim to be the "citizens' voice in police affairs." Start acting like it.

Thank you,

Cyndi Otteson

Dear Board of Commissioners,

The Mayor's increased budget for LAPD and your continued propping up of LAPD is becoming more and more ludicrous as their reign of violences continues in Los Angeles. Nothing has been done to create alternative responders to 911 calls or to create an alternative to 911 in general and you've done nothing to hold true to all the promises you've made last summer to hold LAPD accountable and to address their targeting of people of color.

Now, you're proposing they get more money? In fact, $67 million more? So let me get this straight. You yourselves have said LAPD violated many policies and is guilty of much misconduct, and yet you're wanting to give them more money and more infrastructure? A total of $67 million?! For more mass arrests? For more bullets? For more field jails?

Plainly put, this is pure bullshit. You're once again revealing your priorities, which is to uphold LAPD and not the people of Los Angeles.
We want a divestment from LAPD, not reform. NOT more investment.

We also demand an end to the restrictions on public comment, and that public comment follow the agenda item after it has been discussed, so community members might comment on new information that has been shared. Stop restricting the public comment period to forty-five minutes. You claim to be the “citizens’ voice in police affairs.” Start acting like it.

Signed,

Sarah Bowers

ATTENTION: This email originated outside of LAPD. Do not click on links or open attachments unless you recognize the sender and know the content is safe.

LAPD continues to escalate violence in Los Angeles neighborhoods, with 14 shootings by LAPD so far this year and 6 people killed by police. As in previous years, LAPD continues to respond to calls for help or calls regarding a person in crisis by shooting or killing the person in crisis. As LAPD continues to be a lethal threat to people with mental illness and especially to folks who are Black or brown, the Mayor of LA continues to increase the budget for LAPD, though more funding is direly needed for housing, health care services, schools, and community support. We demand an investment in community services and alternatives to a police response; we continue to demand: Defund the Police!

On the agenda this week: At the request of Commissioner Decker, LAPD has combined all 106 recommendations from three city-requested “after-action” reports into an “Implementation Plan” that would require $67 million in new spending, including the following:

* $53.1 million for new trainings, including $663,000 just on bullets to shoot at these protest trainings
* $4.1 million for a new bureau that will be charged with policing protests
* $2.4 million to hire officers who will engage "community members and leaders likely to organize and participate in First Amendment assemblies"
* $800,000 for surveillance technology including "software to analyze open-source internet and social media content to provide field operations with vetted and useable intelligence/information"
* $492,000 for new policies on Field Jails, $99,428 to train drivers for buses and vans for mass arrests of protestors
* $300,000 for “encrypted radios or another form of private communication”
* $125,000 for upgraded technology for the "shadow teams" that infiltrate protests as well as to "study potential new technology for use in public order policing operations”

What this reveals is a department, enabled by a City Council, Board of Police Commissioners, and Mayor that are intent on reframing the conversation from citywide protests against systemic LAPD violence to how LAPD might be “better next time” at managing protests against police. This is an egregious waste of money on a process that has been historically proven to fail. We demand that the city stop throwing our tax dollars into the black hole that is police "reform" and instead direct that
funding to care-centered programs and services that truly keep Angelenos safe! We want care, not cops!

We see clearly here the cycle of uprisings followed by erasure and reframing by city officials, followed by the proposal or reform. This reinforcement of LAPD through an investment in training and technology is exactly the opposite of what communities are demanding, especially as LAPD murders of community members continue to pile up. We demand a divestment from LAPD - we said defund, NOT reform!

We also demand an end to the restrictions on public comment, and that public comment follow the agenda item after it has been discussed, so community members might comment on new information that has been shared. Stop restricting the public comment period to forty-five minutes. You claim to be the "citizens' voice in police affairs." Start acting like it.

Signed,

Catherine Safley

ATTENTION: This email originated outside of LAPD. Do not click on links or open attachments unless you recognize the sender and know the content is safe.

Dear Commission,

As a licensed clinical psychologist and practicing mental health professional I am deeply concerned by the lack of oversight which continues to allow for perpetuation of police brutality and violence, often towards our most vulnerable communities.

LAPD continues to escalate violence in Los Angeles neighborhoods, with 14 shootings by LAPD so far this year and 6 people killed by police. As in previous years, LAPD continues to respond to calls for help or calls regarding a person in crisis by shooting or killing the person in crisis. As LAPD continues to present a deadly threat to people with mental illness and especially to folks who are Black or brown, the Mayor of LA continues to increase the budget for LAPD, though more funding is direly needed for housing, health care services, schools, and community support. We demand an investment in community services and alternatives to a police response. It is absolutely clear that a system such as LAPD which is founded on principles of
slave hunting, is riddled with corruption of power and offers incentives such as impunity when perpetrating violent acts, cannot be reformed or trusted by the harmed community to include safety or mental health intervention- these must be offered separate and outside of LAPD- we must use the money allocated for these services to support community based organizations and not continue to reward LAPD for violence when they have not demonstrated with actions that they are the best organization to entrust with these tasks.

On the agenda this week: At the request of Commissioner Decker, LAPD has combined all 106 recommendations from three city-requested “after-action” reports into an “Implementation Plan” that would require $67 million in new spending, including the following:

* $53.1 million for new trainings, including $663,000 just on bullets to shoot at these protest trainings

* $4.1 million for a new bureau that will be charged with policing protests

* $2.4 million to hire officers who will engage “community members and leaders likely to organize and participate in First Amendment assemblies”

* $800,000 for surveillance technology including "software to analyze open-source internet and social media content to provide field operations with vetted and useable intelligence/information"

* $492,000 for new policies on Field Jails, $99,428 to train drivers for buses and vans for mass arrests of protestors

* $300,000 for “encrypted radios or another form of private communication”

* $125,000 for upgraded technology for the "shadow teams" that infiltrate protests as well as to “study potential new technology for use in public order policing operations”

What this reveals is a department, enabled by a City Council, Board of Police Commissioners, and Mayor that are intent on reframing the conversation from citywide protests against systemic LAPD violence to how LAPD might be “better next time” at managing protests against police.

We see clearly here the cycle of uprisings followed by erasure and reframing by city officials, followed by the proposal or reform. This reinforcement of LAPD through an investment in training and technology is exactly the opposite of what communities are demanding, especially as LAPD murders of community members continue. We demand a divestment from LAPD. Again, it is clear that actions do not match these empty promises, and continue to reinforce and reward the system monetarily will only excuse and embolden their behavior.

I encourage expansion of transparency and access to public comment for all community
members- public comment should follow the agenda item after it has been discussed, so community members might comment on new information that has been shared. Transparency in the order and number of community members slated to speak will also facilitate efficiency and clarity on access to public comment for all.

Thank you very much, Laura Adery, Ph.D.

Commissioners

On the agenda this week: At the request of Commissioner Decker, LAPD has combined all 106 recommendations from three city-requested “after-action” reports into an “Implementation Plan” that would require $67 million in new spending, including the following:

* $53.1 million for new trainings, including $663,000 just on bullets to shoot at these protest trainings

* $4.1 million for a new bureau that will be charged with policing protests

* $2.4 million to hire officers who will engage "community members and leaders likely to organize and participate in First Amendment assemblies"

* $800,000 for surveillance technology including "software to analyze
open-source internet and social media content to provide field operations with vetted and useable intelligence/information"

* $492,000 for new policies on Field Jails, $99,428 to train drivers for buses and vans for mass arrests of protestors

* $300,000 for “encrypted radios or another form of private communication”

* $125,000 for upgraded technology for the "shadow teams" that infiltrate protests as well as to “study potential new technology for use in public order policing operations”

What this reveals is a department, enabled by a City Council, Board of Police Commissioners, and Mayor that are intent on reframing the conversation from citywide protests against systemic LAPD violence to how LAPD might be “better next time” at silencing Angelenos first amendment rights. How much money could be saved simply by firing current lawless police officers? How many lives would be truly protected by prosecuting lawless officers, creating policies to uphold the constitution for everyone in Los Angeles, instead of finding new ways to violate it?

We see clearly here the cycle of uprisings followed by erasure and reframing by city officials, followed by the proposal or reform. This reinforcement of LAPD through an investment in training and technology is exactly the opposite of what communities are demanding, especially as LAPD murders of community members continue. We demand a divestment from LAPD - we said defund, not reform! LAPD continues to escalate violence in Los Angeles neighborhoods, with 14 shootings by LAPD so far this year and 6 people killed by police. As in previous years, LAPD continues to respond to calls for help or calls regarding a person in crisis by shooting or killing the person in crisis. As LAPD continues to present a deadly threat to people with mental illness and especially to folks who are Black or brown, the Mayor of LA continues to increase the budget for LAPD, though more funding is direly needed for housing, health care services, schools, and community support. If the voices of community members, demanding an investment into services with a focus on alternatives to policing and a divestment of LAPD, are not represented in the budget, what conclusion are Angelenos to draw? Do you truly see the police department who kills and incarcerates more poor, Black and brown people a year than any other law enforcement agency in the nation as serving and protecting? If so, who exactly is served and protected? I have always been told numbers tell a story and that math cannot lie. What story is told by the numbers of the Los Angeles Police Department? Is it one you will be proud to tell your grandchildren you upheld?

Every week it is stated, we also demand an end to the restrictions on public comment. Public comment needs to return to the format to follow the agenda item after it has been discussed, so community members might comment on new information that has been shared. Stop restricting the public comment period to forty-five minutes. You claim to be the “citizens’ voice in police affairs.” How exactly are you acting like it?

Finally, how many lies must he tell, how many people must have their rights stolen
or how many families must be left heartbroken by the corruption of LAPD officers for Chief Michael Moore to be fired? When will you ask for the termination of Michael Moore’s contract as Chief of LAPD? Please help me understand why you will not call for his resignation?

Signed,

Michele Wetteland

* $4.1 million for a new bureau that will be charged with policing protests

* $2.4 million to hire officers who will engage "community members and leaders likely to organize and participate in First Amendment assemblies"

* $800,000 for surveillance technology including "software to analyze open-source internet and social media content to provide field operations with vetted and useable intelligence/information"

* $492,000 for new policies on Field Jails, $99,428 to train drivers for buses and vans for mass arrests of protestors

* $300,000 for “encrypted radios or another form of private communication”

* $125,000 for upgraded technology for the "shadow teams" that infiltrate
protests as well as to “study potential new technology for use in public order policing operations”

What this reveals is a department, enabled by a City Council, Board of Police Commissioners, and Mayor that are intent on reframing the conversation from citywide protests against systemic LAPD violence to how LAPD might be “better next time” at managing protests against police.

We see clearly here the cycle of uprisings followed by erasure and reframing by city officials, followed by the proposal or reform. This reinforcement of LAPD through an investment in training and technology is exactly the opposite of what communities are demanding, especially as LAPD murders of community members continue. We demand a divestment from LAPD - we said defund, not reform!

We also demand an end to the restrictions on public comment, and that public comment follow the agenda item after it has been discussed, so community members might comment on new information that has been shared. Stop restricting the public comment period to forty-five minutes. You claim to be the “citizens’ voice in police affairs.” Start acting like it.

Commissioners,

LAPD continues to escalate violence in Los Angeles neighborhoods, with 14 shootings by LAPD so far this year and 6 people killed by police. As in previous years, LAPD continues to respond to calls for help or calls regarding a person in crisis by shooting or killing the person in crisis. As LAPD continues to present a deadly threat to people with mental illness and especially to folks who are Black or brown, the Mayor of LA continues to increase the budget for LAPD, though more funding is direly needed for housing, health care services, schools, and community support. We
demand an investment in community services and alternatives to a police response; we continue to demand: Defund the Police!

On the agenda this week: At the request of Commissioner Decker, LAPD has combined all 106 recommendations from three city-requested “after-action” reports into an “Implementation Plan” that would require $67 million in new spending, including the following:

* $53.1 million for new trainings, including $663,000 just on bullets to shoot at these protest trainings
* $4.1 million for a new bureau that will be charged with policing protests
* $2.4 million to hire officers who will engage "community members and leaders likely to organize and participate in First Amendment assemblies"
* $800,000 for surveillance technology including "software to analyze open-source internet and social media content to provide field operations with vetted and useable intelligence/information"
* $492,000 for new policies on Field Jails, $99,428 to train drivers for buses and vans for mass arrests of protestors
* $300,000 for “encrypted radios or another form of private communication”
* $125,000 for upgraded technology for the “shadow teams” that infiltrate protests as well as to “study potential new technology for use in public order policing operations”

What this reveals is a department, enabled by a City Council, Board of Police Commissioners, and Mayor that are intent on reframing the conversation from citywide protests against systemic LAPD violence to how LAPD might be “better next time” at managing protests against police.
